

# United States Department of the Interior

OFFICE OF THE SOLICITOR  
Washington, D.C. 20240

October 4, 1993

RECEIVED  
FEB 22 1994

M-36979

Memorandum

To: Secretary

PIRTLE, MORISSET  
SCHLOSSER & AYER

From: Solicitor

Subject: Fishing Rights of the Yurok and Hoopa Valley Tribes

You have asked for an opinion concerning the rights of the Yurok and Hoopa Valley Indian Tribes to an allocation or quantified share of the Klamath River Basin anadromous fishery resources. The request arises from the need of this Department for definitive legal guidance in setting yearly tribal harvest allocations. The Department of Commerce, although it does not have authority to regulate in-river Indian fisheries, has also requested a legal determination from this Department on the Tribes' rights because of the impact on decisions that the Commerce Department must make concerning ocean fisheries that harvest Klamath basin fishery resources.<sup>1</sup>

---

<sup>1</sup> By memorandum dated September 16, 1991, the Assistant Secretary - Indian Affairs, originally requested this opinion. On March 10, 1993, in a letter to the Secretary of Commerce, you stated the position that in the absence of a formal legal determination, the most reasonable and prudent course for the United States, as trustee for the Tribes, would be to set aside at least a 50 percent share of the harvestable surplus of Klamath River stocks for the Indian in-river fishery. As a temporary resolution of differences between your recommendation and concerns expressed by the Department of Commerce, which has jurisdiction over ocean fisheries, this Department set the in-river tribal harvest ceiling in 1993 at 18,500, and both Departments agreed that additional conservation measures for 1993 were appropriate. The Secretary of Commerce directed a 1993 ocean fishing season that conformed to the in-river tribal harvest constraint, and provided a natural spawner escapement floor of 38,000 for 1993. See "Commerce and Interior Departments Set Chinook Salmon Management Measures," April 29, 1993 (U.S. Department of Commerce Press Release NOAA 93-R117); Ocean Salmon Fisheries Off the Coasts of Washington, Oregon, and California, 58 Fed. Reg. 26922 (May 6, 1993) (emergency interim rule); Ocean Salmon Fisheries Off the Coasts of Washington, Oregon, and California, 58 Fed. Reg. 31664 (June 4, 1993) (amendment to emergency interim rule).

During the past twenty-two years, numerous court decisions have confirmed that when the United States set aside in the nineteenth century what are today the Yurok and Hoopa Valley Indian Reservations along the Klamath and Trinity Rivers, it reserved for the Indians federally protected fishing rights to the fishery resource in the rivers running through the reservations.<sup>2</sup> This Department, through legal opinions and policy statements, also has acknowledged the fishing rights of the Yurok and Hoopa Valley Indians, and the Department's corresponding obligations.<sup>3</sup> None

---

<sup>2</sup> See, e.g., United States v. Eberhardt, 789 F.2d 1354, 1359 (9th Cir. 1986); Pacific Coast Federation of Fishermen's Ass'n v. Secretary of Commerce, 494 F. Supp. 626, 632 (N.D. Cal. 1980); Mattz v. Superior Court, 46 Cal. 3d 355, 758 P.2d 606 (1988); People v. McCovey, 36 Cal. 3d 517, 685 P.2d 687, cert. denied, 469 U.S. 1062 (1984); Arnett v. 5 Gill Nets, 48 Cal. App. 3d 454, 121 Cal. Rptr. 906 (1975), cert. denied, 425 U.S. 907 (1976); Donahue v. California Justice Court, 15 Cal. App. 3d 557, 93 Cal. Rptr. 310 (1971).

<sup>3</sup> The Solicitor's office, through the Associate Solicitor, Division of Indian Affairs, has issued a variety of legal opinions since 1976 concerning the nature, extent, and scope of federal reserved Indian fishing rights in the Klamath River basin. See, e.g., Memorandum from Acting Associate Solicitor, Indian Affairs, to Director, Office of Trust Responsibilities (November 4, 1976) (regulation of on-reservation Indian fishing on the Klamath River); Memorandum from Associate Solicitor, Division of Indian Affairs, to Assistant Secretary, Indian Affairs (May 4, 1978) (rights of the Klamath and Hoopa Reservation Indians to fish for commercial purposes); Memorandum from Associate Solicitor, Division of Indian Affairs, to Assistant Secretary - Indian Affairs (March 14, 1979) (Indian legal considerations with respect to Trinity River diversions at Lewiston Dam).

In addition, as a matter of policy this Department has acknowledged the existence of Indian fishing rights on the Klamath and Trinity Rivers and the Department's corresponding obligations. See, e.g., Letter from Assistant Secretary - Indian Affairs to Secretary of Commerce, May 19, 1992; Letter from Secretary of the Interior to Acting Chairperson, Yurok Transition Team, August 23, 1991; Letter from Assistant Secretary - Indian Affairs to Secretary of Commerce, July 25, 1991; Letter from Secretary of the Interior to Secretary of Commerce, May 1, 1991; Trinity River Flows Decision (May 8, 1991) (Decision of the Secretary of the Interior) (adopting recommendation for 1992 through 1996 flow releases, based in part on Department's trust responsibility to the Hoopa Valley and Yurok Tribes); Secretarial Issue Document on Trinity River Fishery Mitigation (approved by Secretary, January 14, 1981) (flow releases of water in the Trinity River); Memorandum from Assistant Secretary for Fish and

of the court decisions, however, have decided whether the Tribes' fishing rights entitle them to a specific allocation or quantified share of the Klamath and Trinity River fishery resources.

I conclude that the fishing rights reserved for the Tribes include the right to harvest quantities of fish on their reservations sufficient to support a moderate standard of living. I also conclude that the Tribes' entitlement is limited to fifty percent of the harvest in any given year unless varied by agreement of the parties.

I have reached my conclusions by examining the history of the reservations, the Indians' dependence on the Klamath and Trinity River fisheries, the United States' awareness of that dependence, and the federal intent to create the reservations in order to protect the Indians' ability to maintain a way of life, which included reliance on the fisheries. I have conducted this examination in the context of the now-substantial body of case law examining the history of the present-day Hoopa Valley and Yurok reservations and confirming the reservation Indians' fishing rights,<sup>4</sup> and the variety of cases involving other tribes' reserved fishing rights.

## I. BACKGROUND

### A. The Fishery Resource

The Klamath River originates in Oregon and flows southwesterly into California to its juncture with the Trinity River. The lower 40-50 miles of the Klamath River lie within the Yurok Reservation. From the point of confluence, the Klamath River flows northwesterly to discharge into the Pacific Ocean. The lower 12 miles of the Trinity River flow through the Hoopa Valley

---

Wildlife and Parks to Assistant Secretary for Land and Water Resources, October 24, 1979.

The Department of Commerce also has recognized that the tribes of the Klamath River basin have federal reserved fishing rights. Letter from Director, National Marine Fisheries Service, Department of Commerce, to Assistant Secretary - Indian Affairs, Department of the Interior, October 16, 1992.

<sup>4</sup> In addition to the cases cited in footnote 2, see Crichton v. Shelton, 33 I.D. 205 (1904) (history of Klamath River and Hoopa Valley Reservations); Partitioning Certain Reservation Lands Between the Hoopa Valley Tribe and the Yurok Indians, S. Rep. No. 564, 100th Cong., 2d Sess. 2-9 (1988) (same); and Partitioning Certain Reservation Lands Between the Hoopa Valley Tribe and the Yurok Indians, H. Rep. No. 938, pt. 1, 100th Cong., 2d Sess. 8-15 (1988) (same).

Reservation, before discharging into the Klamath River near the boundary between the Hoopa and Yurok Reservations.

The Klamath and Trinity Rivers provide habitat for runs of salmon and other anadromous fish. Anadromous fish hatch in fresh water, migrate to the ocean, and complete their life cycles by returning to their freshwater places of origin to spawn. Because of the regular habits of the fish, it is possible to some extent to forecast stock abundance and to control harvesting throughout their range in order to maintain appropriate spawner escapement numbers for conservation and regeneration. However, different species have different life cycles, and different stocks intermix in the ocean before sorting themselves out and returning to the rivers of their origin. See generally Washington v. Washington State Commercial Passenger Fishing Vessel Ass'n, 443 U.S. 658, 662-64 (1979) (discussion of anadromous fish). As such, it is more difficult to regulate the numbers of particular stocks harvested in mixed-stock ocean fisheries, than to regulate stock-specific harvests by ocean terminal or in-river fisheries.

## B. The Reservations<sup>5</sup>

### 1. Klamath River Reservation

The reservations which today constitute the Hoopa Valley and Yurok Reservations originally were created by executive orders issued pursuant to statutes authorizing the President to create Indian reservations in California. The Act of March 3, 1853, authorized the President "to make . . . reservations . . . in the State of California . . . for Indian purposes." 10 Stat. 226, 238. On November 10, 1855, the Commissioner of Indian Affairs submitted a report to the Secretary of the Interior, recommending a reservation that would encompass "a strip of territory one mile in width on each side of the (Klamath) river, for a distance of 20 miles." I Kappler, Indian Affairs: Laws and Treaties 816 (1904) ("Kappler"). The Commissioner's report noted that the proposed reservation had been selected pursuant to the Secretary's instructions "to select these reservations from such 'tracts of land adapted as to soil, climate, water-privileges, and timber, to the comfortable and permanent accommodation of the Indians.'" Id. The report also noted in particular the representations of the federal Indian officials in California

---

<sup>5</sup> Attached as Appendix A is a copy of a map of the former Hoopa Valley Reservation appended to the Supreme Court's decision in Mattz v. Arnett, 412 U.S. 481 (1973). The map pre-dates the more recent partition of the reservation but generally speaking, the Hoopa Valley Reservation today includes what the map refers to as the "Original Hoopa Valley Reservation," and the Yurok Reservation today encompasses the "Old Klamath River Reservation" and the "Connecting Strip" shown on the map.

"that the selection at the mouth of the Klamath River is a judicious and proper one." *Id.* On November 12, 1855, the Secretary of the Interior recommended the proposed reservation to the President, and four days later President Pierce signed the proclamation establishing the Klamath Reservation. *Id.* at 817.<sup>6</sup> The lands were mostly occupied by Yurok Indians, and the reservation encompassed what is today the lower portion of the Yurok Reservation.

## 2. Original Hoopa Valley Reservation

The original Hoopa Valley Reservation is a 12-mile square extending six miles on each side of the Trinity River. The Superintendent of Indian Affairs for California located and proclaimed it in 1864, pursuant to legislation enacted that same year. The legislation authorized the President to set apart up to four tracts of land in California "for the purposes of Indian reservations, which shall be of suitable extent for the accommodation of the Indians of said state, and shall be located as remote from white settlements as may be found practicable, having due regard to their adaptation to the purposes for which they are intended." Act of April 8, 1864, § 2, 13 Stat. 39, 40 ("1864 Act"); *see* I Kappler at 815; *see also* Donnelly v. United States, 228 U.S. 243, 255-57 (1913); Mattz v. Superior Court, 46 Cal. 3d 355, 758 P.2d 606, 610 (1988). The reservation was mostly inhabited by Hoopa Indians. Although Congress itself thereafter recognized the existence of the Hoopa Valley Reservation as early as 1868, Donnelly, 228 U.S. at 257, it was not until 1876 that President Grant issued an executive order formally setting aside the reservation "for Indian purposes, as one of the Indian reservations authorized . . . by Act of Congress approved April 8, 1864." I Kappler at 815.

## 3. Extended Hoopa Valley Reservation

Between 1864 and 1891, the legal status of the Klamath River Reservation as an Indian reservation came into doubt. Although the Klamath Reservation had been created pursuant to the 1853 statute, the subsequent 1864 Act limited to four the number of reservations in California, and contemplated the disposal of reservations not retained under authority of the 1864 Act. *See* 1864 Act, § 3, 13 Stat. at 40. By 1891, the Round Valley, Mission, Hoopa Valley, and Tule River reservations had been set apart pursuant to the 1864 Act. Mattz v. Arnett, 412 U.S. at 493-94. Still, the Department of the Interior continued to recognize that the Klamath Reservation was critical for protecting the Indians who lived there and for protecting their access to the fishery, and continued to regard it as a

---

<sup>6</sup> *See also* Mattz v. Arnett, 412 U.S. 481, 487 (1973); Mattz v. Superior Court, 46 Cal. 3d 355, 758 P.2d 606, 610 (1988).

reservation throughout the period from 1864 to 1891. As the Court noted in Mattz v. Arnett, the reservation "continued, certainly, in de facto existence," during that time. Id. at 490.

Finally, in 1891, in order to eliminate doubt, to expand the existing reservation, and to better protect the Indians living there from encroachment by non-Indian fishermen, President Harrison issued an executive order under the authority of the 1864 Act. The order extended the Hoopa Reservation along the Klamath River from the mouth of the Trinity River to the ocean, thereby encompassing and including the Hoopa Valley Reservation, the original Klamath River Reservation, and the connecting strip in between. Thereafter, the original Klamath Reservation and connecting strip have been referred to jointly as the "Extension" or the "Addition," because they were added to the Hoopa Valley Reservation in the 1891 Executive Order. See I Kappler at 815 (Executive Order, October 16, 1891); Mattz v. Arnett, 412 U.S. at 493-4; Donnelly, 228 U.S. at 255-259. The validity of the 1891 addition and the continuing existence of the area included within the original Klamath Reservation were subsequently upheld by the Supreme Court in the Donnelly and Mattz v. Arnett decisions.<sup>7</sup>

4. Partition into the Yurok and Hoopa Valley Reservations

In 1988, Congress enacted the Hoopa-Yurok Settlement Act, which partitioned the extended Hoopa Valley Reservation into the present Hoopa Valley Reservation, consisting of the original 12-mile square bisected by the Trinity River and established under the 1864 Act, and the Yurok Reservation, consisting of the area along the Klamath River included in the 1891 Extension (excluding Resighini Rancheria).<sup>8</sup> Hoopa-Yurok Settlement Act of 1988, Pub.

---

<sup>7</sup> In Donnelly v. United States, 228 U.S. 243, modified and rehearing denied, 228 U.S. 708 (1913), the Court affirmed the federal conviction of the defendant for murdering an Indian within the boundaries of the 1891 Extension. The Court concluded that the Extension had been lawfully established and constituted Indian country. In Mattz v. Arnett, 412 U.S. 481 (1973), the Court rejected California's argument that the Act of June 17, 1892, 27 Stat. 52, opening the original Klamath Reservation to non-Indian settlement, had diminished the boundaries of the extended reservation. The Court struck down a state forfeiture proceeding against gill nets confiscated from a Yurok Indian, holding that the act opening the reservation to settlement did not alter the boundaries of the extended Hoopa Valley Reservation.

<sup>8</sup> For the history and background of the 1988 Settlement Act, see S. Rep. No. 564 and H. Rep. No. 938, pt. 1, supra note 4. You asked for an opinion addressing the rights of the Hoopa and

L. No. 100-580, 102 Stat. 2924, 25 U.S.C.A. § 1300i-1300i-11 (Supp. 1993).

The congressional partition "recognized and established" each area as a distinct reservation, and declared that "[t]he unallotted trust land and assets" of each reservation would thereafter be held in trust by the United States for the benefit of the Hoopa Valley and Yurok Tribes, respectively. 25 U.S.C.A. § 1300i-1(b)&(c). Both the House and Senate committee reports accompanying the legislation make specific mention of the Yurok Tribe's interest in the fishery. See S. Rep. No. 564, supra note 4, at 2, 14; H. Rep. No. 938, pt. 1, supra note 4, at 20.<sup>9</sup>

Although there are now two distinct reservations for the Yurok and Hoopa Valley Tribes, the events most relevant to your inquiry occurred prior to the 1988 partition. For purposes of this opinion, the various reservation areas will be referred to as the original Klamath River Reservation, the Hoopa Valley Reservation (original 12-mile square), and the extended Hoopa Valley Reservation (the post-1891 reservation, consisting of the Hoopa Square, the original Klamath River Reservation, and the connecting strip).

---

Yurok Tribes. We do not address the fishing rights of the Coast Indian Community of the Resighini Rancheria or other tribes in the Klamath River basin in California.

<sup>9</sup> Both House and Senate committee reports refer to the substantial economic value of the Yurok Reservation fishery. The Senate Committee Report on the Settlement Act states:

Tribal revenue derived from the "Addition" [now the Yurok Reservation] recently has totalled only about \$175,000 annually. However, the record shows that individual Indian earnings derived from the tribal commercial fishing right appurtenant to the "Addition" is also in excess of \$1,000,000 a year. The Committee also notes that because of the cooperative efforts of the Hoopa Valley Tribe and other management agencies to improve the Klamath River system, and because the Fisheries Harvest Allocation Agreement apportioning an increased share of the allowable harvest to the Indian fishery, the tribal revenue potential from the "Addition" is substantial.

S. Rep. No. 564, supra note 4, at 14-15; see H. Rep. No. 938, pt. 1, supra note 4, at 20. See also Central Valley Improvement Act, Pub. L. No. 102-575, Title XXXIV, § 3406(b)(23), 106 Stat. 4706, 4720 (1992) (reference to federal trust responsibility to protect the fishery resources of the Hoopa Valley Tribe).

C. Historic Dependence of the Yurok and Hoopa Indians on the Salmon Fishery

Since prehistoric times, the fishery resources of the Klamath and Trinity Rivers have been a mainstay of the life and culture of the Indians residing there.<sup>10</sup> See Mattz v. Arnett, 412 U.S. 481, 487 (1973); Blake v. Arnett, 663 F.2d 906, 909 (9th Cir. 1981). One estimate is that prior to settlement along the coast by non-Indians, the Indians in the Klamath River drainage "consumed in excess of 2 million pounds . . . of salmon annually from runs estimated to have exceeded 500,000 fish." U.S. Department of the Interior, Environmental Impact Statement - Indian Fishing Regulations 2 (Hoopa Valley Reservation, California) (April 1985).

The Indians' heavy dependence on the salmon fishery for their livelihood has been well-documented.<sup>11</sup> "The salmon fishery permitted the [Klamath-Trinity basin] tribes to develop a quality of life which is considered high among native populations." AITS

---

<sup>10</sup> The Indians' reliance on fishing continues. As the court noted in United States v. Wilson:

To modern Indians of the [pre-1988] Hoopa Valley Reservation, fishing remains a way of life, not only consistent with traditional Indian customs, but also as an eminently practical means of survival in an area which lacks the broad industrial or commercial base which is required to provide its population, Indian or otherwise, with predictable, full-time employment and income adequate to provide sufficient quantities and qualities of the necessities of life.

611 F. Supp. 813, 818 n.5 (N.D. Cal. 1985) (citing National Park Service, Environmental Assessment: Management Options for the Redwood Creek Corridor, Redwood National Park (1975)), rev'd and remanded on other grounds sub nom., United States v. Eberhardt, 789 F.2d 1354 (9th Cir. 1986).

<sup>11</sup> See, e.g., Anthropological Study of the Hupa, Yurok, and Karok Indian Tribes of Northwestern California: Final Report 10, 22, 67-68, 101, 107 (American Indian Technical Services, Inc. January 1982) (Prepared for the U.S. Department of the Interior ("AITS (1982)"); Edwin C. Bearss, History Resource Study - Hoopa-Yurok Fisheries Suit - Hoopa Valley Reservation 60 (U.S. Department of the Interior 1981); see also Ethnohistorical Data on the Klamath-Trinity Tribes of Northwestern California With Particular Emphasis on the Yurok (Klamath) Indians of the Lower Klamath Area (American Indian Technical Services, Inc. June 1984) (prepared for the U.S. Department of the Interior ("AITS (1984)")).

(1982) at 10. The salmon resource was the primary dietary staple of the tribes, and was the center of their subsistence economy. As the court noted in Blake v. Arnett, 663 F.2d at 909, the fishery was "not much less necessary to the existence of the [Yurok] Indians than the atmosphere they breathed" (quoting United States v. Winans, 198 U.S. 371, 381 (1905)).

During the pre-contact period, the salmon fishery also held significant commercial and economic value in Yurok and Hoopa culture and economy. Both tribes appear to have held firm concepts of property rights associated with the fishery. Fishing rights were considered personal property and part of an individual's wealth. Rights to fishing sites could be owned privately, fractionally, or communally, and could be inherited, sold, or transferred to pay debts.<sup>12</sup> Ownership of fishing sites gave owners the right to do what they wished with the fish taken, including sale or trade.<sup>13</sup> Access to the fishery was the subject of trade and barter, and use of fishing sites not one's own might be paid for by providing a portion of the catch. Virginia Egan-McKenna, Persistence with Change: The Significance of Fishing to the Indians of the Hoopa Valley Reservation in Northwestern California 74-75 (Unpublished M.A. Thesis, University of Colorado 1983). Ownership of fishing rights associated with particular sites also may have given the owner control over downstream activities. Id. at 69.

According to one source:

A key factor in [trading of fishing rights between tribes] appears to have been the number of salmon runs a tribe received each year. For example, the Chilula received only one run a year and they often either traded with the Hupa for fish or bartered for temporary fishing rights (Curtis 1924:4). The Chimariko "sometimes paid the Hupa for the privilege of fishing at the falls near Cedar Flats" (Nelson 1978: 25-26).
